# Overpopulation quotes

## Jane Fonda

"By something like 2045 there will be 10 billion people on the planet - or more! I'm

## Jane Goodall

"It's our population growth that underlies just about every single one of the problems that we've inflicted on the planet."

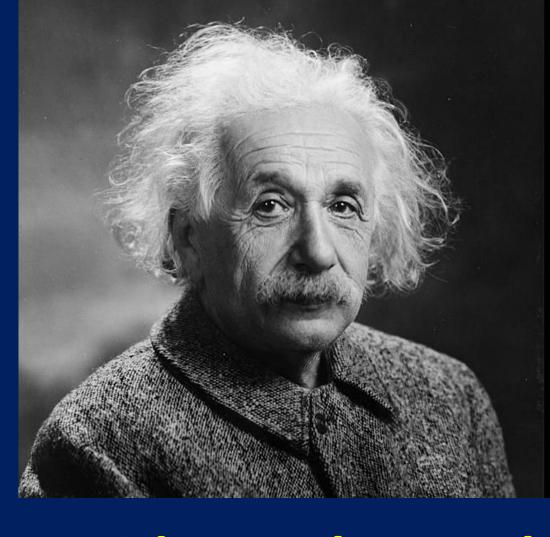

**Cameron Diaz** 

"We don't need any

more kids. We have

planet."

**David Attenborough** "All our environmental problems become easier to solve with fewer people and

## **Albert Einstein**

"Overpopulation in various countries has become a serious threat to the well-being of many people."

### scared."

## Helen Keller

"Once it was necessary that the people should multiply and be fruitful if the race was to survive. But now to preserve the race it is necessary that people hold back the power of propagation."

harder to solve with ever more people."

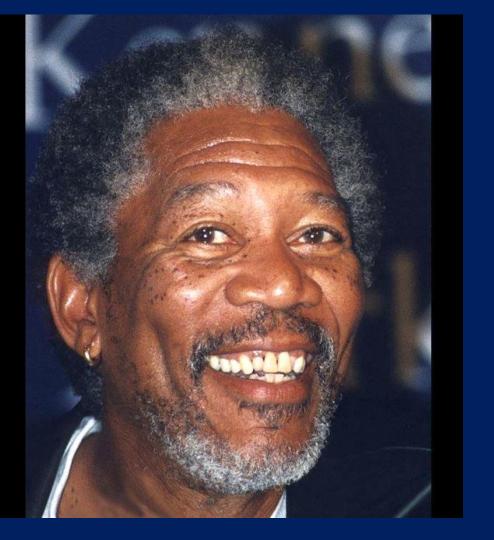

## **Stephen Hawking**

"If it continued at this rate, with the population doubling every 40 years, by 2600 we would all be standing literally shoulder to shoulder."

## **Morgan Freeman**

"Imagine how much pollution would be in the air and the oceans if there were only two billion people putting it in? So yeah, we're already overpopulated."

**Jacques Cousteau** "Overconsumption and overpopulation underlie every environmental problem we face today."

**Queen Elizsabeth II** "There can be no long-term stability when the rate of population growth exceeds the rate of job creation."
